Network Interface Devices (NIDs)

Lincoln County Telephone System, Inc. has 2,000 customers with metallic (copper) connections to the Central Office and their NIDs are powered from the Central Office.

Lincoln County Telephone System, Inc. has 62 customers with non-metallic (fiber optic) connections to the Central Office. These customers' NIDs are battery powered in case of emergency. The batteries are rated to last 8 hours with no use and 4 hours with constant use.

Ability to reroute traffic around damaged facilities:

Lincoln County Telephone System, Inc. has two middle mile connection points one with AT&T Nevada and the other with Moapa Valley Telephone. These fiber facilities are used to transport Voice and Data from our service area to the world. The Voice and Data network used to transport traffic within our service area utilizes fiber to connect the Pioche, Panaca, Caliente, Alamo and the Coyote Springs exchanges. The Sand Springs and Lake Valley exchanges are connected by digital microwave. Because there are less than 50 customers in these two exchanges no redundant facilities are planned. Copper and fiber cable facilities between Pioche and Panaca provide redundant T1's for the Voice network. In 2014 a new fiber route between Panaca and Caliente begin providing redundant voice and data interexchange services. Future plans include a Ethernet ring from our Caliente office that would connect to the Alamo central office via Coyote Springs providing redundant capacity between our exchanges and out to the world.

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of Lincoln County Telephone System, Inc., which comprise the balance sheet as of December 31, 2016, and the related statements of income and retained earnings and cash flows for the year ended, and the related notes to the financial statements, and have issued our report thereon dated April 25, 2017. In accordance with Government Auditing Standards, we have also issued our report dated April 25, 2017, on our consideration of Lincoln County Telephone System, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. No reports other than the reports referred to above and our schedule of findings and recommendations related to our audit have been furnished to management.

In connection with our audit, nothing came to our attention that caused us to believe that Lincoln County Telephone System, Inc. failed to comply with the terms, covenants, provisions, or conditions on its loan, grant, and security instruments as set forth in 7 CFR Part 1773, Policy on Audits of Rural Utilities Service Borrowers, §1773.33 and clarified in the RUS policy memorandum dated February 7, 2014, insofar as they relate to accounting matters as enumerated below. However, our audit was not directed primarily toward obtaining knowledge of noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding Lincoln County Telephone System, Inc.'s noncompliance with the above referenced terms, covenants, provisions, or conditions of the contractual agreements and regulatory requirements, insofar as they relate to accounting matters. In connection with our audit, we noted no matters regarding Lincoln County Telephone System, Inc.'s accounting and records to indicate that Lincoln County Telephone System, Inc. did not:

- Maintain adequate and effective accounting procedures;
- Utilize adequate and fair methods for accumulating and recording labor, material, and overhead costs, and the distribution of these costs to construction, retirement, and maintenance or other expense accounts;
- Reconcile continuing property records to the controlling general ledger plant accounts;
- Clear construction accounts and accrue depreciation on completed construction;

- Record and properly price the retirement of plant;
- Seek approval for the sale, lease, or transfer of capital assets and disposition of proceeds for the sale or lease of plant, material, or scrap;
- Maintain adequate control over materials and supplies;
- Prepare accurate and timely financial and operating reports;
- Obtain written RUS approval to enter into any contract, agreement, or lease with an affiliate;
- Disclose material related party transactions in the financial statements, in accordance with requirements for related parties in generally accepted accounting principles;
- Comply with the requirements for the detailed schedule of investments.

This report is intended solely to communicate, in connection with the audit of the financial statements, on compliance with aspects of contractual agreements and regulatory requirements for telecommunications borrowers based on the requirements of 7 CFR Part 1773, as clarified in the RUS policy memorandum dated February 7, 2014. Accordingly, this report is not suitable for any other purpose.
